

Tableau Enterprise Start-up Accelerator: £8,500 ex VAT

Who are we

Promatix are passionate about unleashing the potential of visual analytics by helping people see and understand their data. We have chosen to work exclusively with Tableau as our visual analytics tool because our key values are aligned, as a Tableau Partner and Tableau Certified Professionals we have the expertise to deliver and flexibly to meet your needs.

Where you are

You have decided to roll out Tableau to your business but have not yet had internal staff trained on Tableau desktop or server, you want to achieve a return on investment in Tableau as quickly as possible by having the right infrastructure in place and your staff trained.

What we can do

3 Days of server Consultancy, 1 to discuss your needs and understand the environment Tableau needs to work within, 2 to install, configure and test the installation.

2 Days Combined Foundation and Advanced Tableau desktop training for up to 10 delegates.

2 Days Tableau Server Administration training for up to 5 delegates.

2 Days consultancy for use on server or desktop support (to be used in ½ or full days).
